

CARRY THE LIGHT ELECTRIC, INC.

**"Fast, Friendly, Affordable
24/7 Electrical Service
Across the Front Range"**

May 1, 2014

The State of Our Business Letter

Dear Friends,

This year of 2014 marks our 28th anniversary!

In an industry where longevity is often measured in months, we are approaching our third decade of providing clients with safe, affordable and quality residential / commercial electrical services across the Front Range and beyond.

As it may have been awhile since we did business together, let me just touch on a few of the job opportunities we have experienced within the last few years:

1. One of our largest jobs was the **Red Rocks Baptist Church in Morrison, CO**. At approximately 80,000 square feet, this was one of our most exciting projects and kept a couple of our guys busy for more than a year.
2. One of our most diverse jobs is currently ongoing and that is the construction of the **Sanjel Concrete Plant in Fort Lupton, CO**. With many challenging details in a difficult environment, this has proven to be a successful venture for our company. We look forward to the completion of this project sometime next year.
3. One of the national jobs we landed is the **Golden Corral Buffet** – so far, we've done electrical work with this great chain of buffet restaurants in CO, NV, WY, AR, MO and FL. It is both a great place to eat and also to work.
4. One of our most satisfying jobs was the installation of both high voltage and low voltage systems at the **Woodrow Wilson Academy in Westminster, CO**. To be able to help children and those who teach our children. This is a special experience at Carry the Light Electric. To be a part of the *"Nurturing, Motivating, and Exciting Children to Learn"* has been a fun and satisfying experience for our company.

Our motto over the last few years continues to be "We treat you the way we want to be treated. And that includes providing you a level of service that we can be proud of and that you can rely on."

Please accept the enclosed calendar magnet as our gift to you in the hope that we all have an incredible year in 2014. If there is any future electrical service work we can do for you or your friends, please do not hesitate to call or email.

Sincerely,

Steve Sullivan

Steve Sullivan, Owner

PS. *I almost forgot – please check out our new website at www.CTLNow.com!*
